<b>Minimum for AFA</b>	<b>61*</b>	<b>SH</b>

<sup>1</sup>This curriculum is designed to facilitate smooth transfer to a four-year institution for the completion of a baccalaureate degree and it meets the requirements for the AFA (Associate of Fine Arts) degree. Consult the College & Career Success Center for help in selecting courses appropriate for the program at the college or university where you plan to attend.

<sup>2</sup>Students will need to complete additional general education requirements in humanities and social and behavioral sciences at the institution to which they transfer. The reduced credits in general education at SSC enable students to complete the required sequences of art courses during their freshman and sophomore years, which replicates the course-taking patterns for art students in the four-year institutions.

<sup>3</sup>Students in studio art are required to schedule one hour per week in the studio (in addition to class time) for each one hour of credit. Faculty are available during scheduled office hours to advise art students about their courses and programs.

**Art Faculty:** Amy Babinec, Eric Tucker

**See also AAS Graphic Design, Graphic Arts Certificate, and A.A. with concentration in Art.**

†Note: All full-time transfer students are required to take OCS 121.

Developmental courses do not count towards degree.

‡Course meets the Human Diversity graduation requirement. Students earning an Associate degree must meet the requirement for coursework on improving human relations as defined in Public Act 87-581.

Less than 40% of total degree credit hours may be taken in an online format when online courses are available.
